

Screens

Consistent, open mesh construction reduces loading. Exceptional grit retention extends life of screen and decreases sanding times by not having to change your screens as often. Provides a consistent scratch throughout the wood surface, resulting in a more uniform look.

- Full resin bond
- More consistent scratch pattern
- Excellent grain retention
- Shrink-wrapped to prevent grit loss
- Available in 16" - 60, 80, 100, 120, 150, 180 and 220 grit

Double-Sided Sanding Discs

For exceptionally flat sanding on all wood floors with a buffer, Double-Sided Sanding Discs provide more aggressive and cleaner cutting than traditional screens or single-sided discs. The unique design eliminates the need for an extra hardplate. Simply drive with a 16" Conditioning Pad on any 16" buffer for incredibly flat, clean floors.

- Unique 16" disc is coated on both sides for maximum efficiency
- Double-sided discs are rigid – will not tear, wrinkle or waffle like single-sided discs
- No "dish-out" of soft grain like a screen
- More durable and longer life than screens or single-sided discs
- Sands exceptionally flat. Ideal for parquet, inlays, borders, and multi-specie floors, as well as traditional strip and plank
- Ideal for scarifying concrete and abrading slab leveling materials to achieve a flat and smooth surface
- Simply use the Double-sided disc as you would a screen, driving it under a Bona® Conditioning Pad – No hardplate needed!
- Fits all 16" buffers
- Available in 16", 16-220 grit

Conditioning Pads

This unique Pad out-performs any abrasive or conditioning material used in the wood flooring industry today for abrading wood floors between finish coats. The Conditioning Pad is designed for use on waterborne finishes but works equally well on solvent-based finishes. The conforming nature of the pads makes them ideal for most wood floor finish surfaces insuring optimum bonding and the smoothest possible final coat. Conditioning Pads are used with siafast Delta Sheets for additional abrasion to eliminate grain raise.

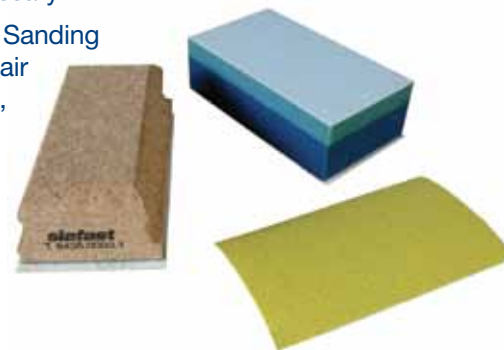

- Will not leave unsightly scratches/swirls
- Abrades finish surfaces thoroughly for uniform appearance and good adhesion
- Will not mark or burn the finish surface
- Cleans easily by vacuuming
- Long wear life compared with other competitive pads
- Glides smoothly over finish surfaces
- Conditioning pad, 320 grit
- Delta sheet, 150 grit
- 16" and 20" diameter

Hand Sanding Blocks and Paper

Bona's Cork Sanding Block and siafast sanding block paper are excellent tools for sanding all areas where hand scraping was necessary.

Bona's Contouring Sanding Block is ideal for stair nosing, T-moldings, reducers and other transition pieces.

Available in 60-180 grit

Bona Abrasives

Bona Abrasives bring you the most aggressive performance without sacrificing smoothness at a tremendous value.

Bona put their abrasives to the ultimate test on a gym floor with over 15 coats of finish that hadn't been sanded in over 10 years!

Scan to watch the Bona competitive testing or go to bona.com

“ I have been using the leading competitor abrasives brand since I first learned how to refinish hardwood floors, about 13 years ago. After attending a Bona Certified Craftsman School, working with Bona BLUE Abrasives Belts and watching the Bona Abrasive Video, I decided to do my own side-by-side comparison on the job site. The Bona BLUE Belts definitely outperformed the leading competitor's products and offers the better value for my business. The Bona BLUE Belts are an effective material that aggressively cuts the floor and lasts longer than the competitor's product. ”

- Helder "Eddie" DeSouza, Gorsegner Brothers
Bona Certified Craftsman

Bona BLUE Anti-Static Abrasives

Bona BLUE Anti-Static abrasives consist of an innovative combination of grit materials and anti-static properties, designed to give you aggressive performance without sacrificing smoothness, at a tremendous value. The addition of anti-static properties helps prevent dust from clinging to the belt, which leads to a more consistent cut, less dust on the floor and will keep your machine cleaner.

Available in:
8" and 10", grits 16-120
12" (11 7/8" x 31 1/2"), grits 16-120
12" (11 7/8" x 29 1/2"), grits 16-120

Bona BLUE Anti-Static Edger Discs

The Bona BLUE Anti-Static Edger discs consist of an innovative combination of grit materials and anti-static properties providing a more aggressive, consistent cut. Bona BLUE Edger discs can also be used with bolt-on systems.

7" Attachment:
Paper backing
5/16" bolt
36-120 grit

7" Attachment:
Cloth backing with Siafast backing that will also work with 7/8" and 5/16" bolt whole hole patterns
24-120 grit

7" Attachment:
Paper backing
7/8" bolt
36-120 grit

6-7/8" x 7/8" Attachment:
Bolt-On
36-120 grit

Bona Edger Discs

Bona Edger Discs are made of a silicon carbide mineral specifically modified for edger and buffer applications to leave the smoothest surface for finishing. Bona Edger discs do not clog as fast as other products with a similar mineral blend. Discs have a Velcro®-like (hook and loop) fastening system. With the Conversion Disc mounted on your edger disc pad, discs press into place and peel to remove in just seconds. This high-quality abrasive provides durability, performance and is guaranteed not to slip up to 8,900 RPM.

7" Attachment:
Hook & loop (siafast)
16-120 grit

7" x 7/8" Attachment:
Bolt-On
16-120 grit

7" x 5/16" Attachment:
Bolt-On
16-120 grit

6" Attachment:
Hook & loop (siafast)
24-100 grit

Bona Multidisc

The Bona Multidisc is an innovative – 6 disc drive plate that creates the perfect surface for a Bona Finish System. The six, 5" disc's spin independently of each other, all but eliminating swirls and scratch marks, leaving the floor smooth and flat. The Bona Multidisc is perfect for patterned and dark stained floors and removing chatter marks. Universal 5" paper with 8-hole pattern for use on orbital palm sanders. Provides same performance around edges and detail areas to ensure no picture framing occurs.

Sanding Options:

- Use without interface pads for all species with flat surfaces and to be more aggressive
- Use 1/4" pad for uneven surfaces or softer, more open grains and species (included)
- Use 1/2" pad for uneven surfaces or tougher, harder species (sold separately)

Bona 5" x 8 hole abrasive disc Attachment:
Hook & loop (siafast)
36-120 grit

Bona Sanding Rolls

Bona Sport Platinum Floor Sanding Roll

Available in 12", 25 yd rolls,
36 grit

Bona Sport Platinum Floor Sanding Roll is specifically developed for coarse sanding on the first cut. The optimized blend of ceramic and aluminum oxide provides unprecedented performance in removing urethane finishes.

- Lasts three times as long as competitive ceramic abrasives
- 4th generation ceramic grain significantly outperforms the competitors 1st generation grains
- Polyester backing is 100% resistant to moisture and humidity.

12" Bona BLUE Anti-Static Rolls

Zirconia/SiC blend for use on drum sanders provides a long lasting, consistent cut.

Cloth backing
25 Yard Rolls
24-120 grit

8" Bona Silicon Carbide Sanding Rolls

Silicon Carbide blend for use on drum sanders provide a long lasting, consistent cut.

Paper backing
25 Yard Rolls
16-100 grit
