

PolyWhey[®]

Professional Wood Floor Finishes

Redefining floor finishing with exceptional workability, durability and safety through sustainable practices.

made in
USA

For Professional Use Only

PolyWhey is the next generation of water-based polyurethane, a truly unique finish that is naturally durable, safe and easy-to-use. The PolyWhey formula uses whey protein, a by-product in cheese manufacturing, to displace the toxic ingredients traditionally used in wood finish by functioning as a co-binder and co-solvent. The result is a new category of wood floor finishes with all the durability of oil-based finish and the application advantages of waterborne finish minus the negatives associated with each.

POLYWHEY 3000 WOOD FLOOR SEALER

Recommended for all interior bare woods floors or previously stained/coated wood flooring, PolyWhey 3000 uses the power of natural whey protein to create a professional strength clear sanding sealer. PolyWhey 3000 is easy to apply, dries clear and quickly, and minimizes both grain raise and tannin pull.

- Excellent abrasability
- Excellent adherence properties allow compatibility with nearly all wood surface and stain treatments
- Seals the wood, minimizing grain raise and tannin pull
- Quick-dry sealer with great coverage and easy clean-up

POLYWHEY 2500 WOOD FLOOR FINISH

A water-based finish recommended for all residential and light commercial interior hardwood floors. Neutral odor, great coverage, quick-drying, easy cleanup and long life make PolyWhey 2500 an economical choice when selecting an environmentally-friendly and durable finish.

- Single component. No limited pot life and no wasted finish.
- Excellent flow and leveling
- At 135 g/L, complies with all US and Canadian VOC regulations
- Fast drying and curing offers ability to apply up to 3 coats in one day
- Available in satin, semi-gloss, and gloss

POLYWHEY AMBER SEALER

Creates a natural oil-tone on hardwoods and soft woods like oak, maple and pine without the drawbacks of an oil modified urethane. Multiple coats of Amber Sealer can be applied to achieve the desired depth of color, and provide a custom finish for discriminating customers.

- Superior flow and leveling for smooth application and preparation for finish; won't streak
- Quick-dry sealer with great coverage (500-600 sq ft per gallon) and easy clean-up
- Minimizes grain raise and tannin pull; dries quickly and sands easily, leaving a smooth finish
- Easy-to-apply formulation can be applied with roller, t-bar or painters pad

POLYWHEY 3500 WOOD FLOOR FINISH

For all commercial and heavy-traffic residential interior hardwood floors, PolyWhey 3500 Wood Floor Finish provides outstanding mar and scratch resistance and stands up to the rigorous cleaning required of daily use. A neutral odor, great coverage, quick-drying, easy cleanup and long life make PolyWhey 3500 a premium, environmentally smart topcoat.

- Single component. No limited pot life and no wasted finish.
- Premium formulation yields premium durability
- At 95 g/L, complies with all US and Canadian VOC regulations
- Available in matte, satin and semi-gloss

POLYWHEY MVP SPORT FLOOR FINISH

A superior, high gloss, single component finish formulated exclusively for use on gymnasium and other hardwood sport floors. Durable and easy to maintain, PolyWhey MVP Sport Floor uses proprietary PolyWhey technology to achieve uncompromising performance, outstanding mar and scratch resistance and low VOCs (<95g/l).

- At 95 g/L PolyWhey MVP complies with all US and Canadian VOC regulations and is safe for all environments
- PolyWhey MVP Sport Floor Finish is certified by the Maple Flooring Manufacturers Association
- Neutral odor offers option to coat in occupied areas
